

Fisherman's Wharf Project Update

Fisherman's Wharf

Update posted 3/13/19

On **June 14, 2016**, the Board of Supervisors approved Public Works Plan Amendment #7, which allows for development of a mixed-use project at Fisherman's Wharf. The proposed Public Works Plan Amendment #7 is posted online, along with the Consideration of Environmental Factors. Click [here](#) to view reports.

The Fisherman's Wharf proposed project is again moving through the process. The County has requested an amendment to its Public Works Plan in order to accommodate the project. In order for the Coastal Commission to approve the amendment, the City of Oxnard must also amend its Local Coastal Plan.

On **March 6, 2019** the County submitted information to the City of Oxnard to complete the application for a Local Coastal Plan amendment. The most significant issue is whether residential units will be allowed at that location. The City of Oxnard's 2030 General Plan, which was adopted in 2011, recommends mixed use (residential and commercial) for that area, so the County is hopeful that the City will amend its Local Coastal Plan to be consistent with its adopted 2030 General Plan.
